

Are you a **Bangladeshi** parent with a child with **autism**?

I would like to know more about **your** experiences of **raising** a child with **autism**.

PARTICIPANTS NEEDED

There is very little research looking at Bangladeshi parents who are raising a child with autism.

My research will provide an opportunity for you to share your experiences and views in an **anonymous** and **confidential** way.

I hope the information you share will be helpful to you, the wider Bangladeshi community and professionals that work with parents

If you are a **parent** that **identifies as Bangladeshi** and **your child** has received an **autism diagnosis**, please get in touch.

This research has ethical approval from the University of East London.

You will be speaking to myself, Rasna Begum, a Sylheti-speaking, Trainee Educational Psychologist based at Enfield Educational Psychology Service.

You will be interviewed online on two occasions:

- 1 hour in depth interview
- 15-20 min follow up

Participants will receive a **£10 Amazon voucher** for taking part

Please get in touch!

If you are happy to take part please send an email to rasna.begum@enfield.gov.uk We can then arrange a convenient time to talk more about the research.
