

Family Fund

Helping disabled children

Helping families raising disabled or seriously ill children and young people, on a low income, across the UK

We provide grants for your essential items, and wider support services

www.familyfund.org.uk

Can we help you?

We help families raising disabled or seriously ill children or young people up to the age of 24 years old, on a low income, living in the UK.

Please visit our website for details on our eligibility criteria and how to apply today:

www.familyfund.org.uk

“We can’t afford a break on one salary, so grants from Family Fund have given us the chance to get away together and have a change of scene. We can experience new things as a family and make new memories.”

Our grant programmes and wider support

We provide grants for wide-ranging items from kitchen appliances, clothing, bedding, sensory toys, play equipment or much-needed family breaks to computers, tablets, and much more.

We also give families wider support, including:

- ✓ information, resources and workshops on where to go for help with money and benefits;
- ✓ how to find help with your child's education and mental health and wellbeing;
- ✓ digital training and creative workshops.

"Family Fund is a really great resource for providing support to your child that you may otherwise not be able to afford. The grants help your child, which in turn helps you as a parent."

**Funded by
UK Government**

The grant programmes we offer include the Support for Families with Disabled Children programme, funded by the Department for Education in England, and programmes funded by the Scottish Government, the Welsh Government, the Department of Health in Northern Ireland and a range of other funders whose support we gratefully recognise.
